

Natural-hued wood grains and solid colors give our Faux Wood Blinds the look of genuine wood, but with a bundle of benefits. Now that's economically appealing.

ALTA  
WINDOW FASHIONS

# FAUX WOOD BLINDS

## WHY OUR FAUX WOOD BLINDS?

- 2" and 2 ½" slat sizes accommodate any window size
- Constructed of durable engineered polymer material for long-lasting performance
- Dependable slats won't crack, chip or fade
- Cordless Lift & Lock™, cordless lift and RemoteTilt motorization options available
- Wider widths than many other faux wood programs
- Woven tapes in rich solids and elegant patterns allow for the perfect persona at the window
- Heavy-duty slim-design headrail and crash-proof cordlock provide smooth, easy operation
- Innovative, magnetic valance attachment system is secure, easy to install, and conveniently adjustable
- Valance returns are glued and finished by hand for a refined look and time-saving installation
- Limited Lifetime Warranty for customer satisfaction

*design simplified™*

# FAUX WOOD BLINDS BY ALTA

FEATURES	BENEFITS
<b>SLAT SIZES AND STYLES</b>	
2"	A standard slat size that's perfect for any size window.
2 ½"	Larger scale offers optimal view-through and a more dramatic look. An economical alternative to shutters.
<b>Smooth Finish</b>	Offered in whites, neutrals and wood tones.
<b>Textured</b>	White-tone polymer slat with grain depth and dimension effect.
<b>VALANCE PROGRAM</b>	
<b>Valance Styles</b>	Multiple style choices complement any decor, from traditional to sleek and contemporary.
<b>A Glued Returns</b>	Returns are glued and finished by hand for a perfected look and time-saving installation.
<b>A Magnetic Valance Clips</b>	Innovative, proprietary magnetic clips make installation quick, easy and secure while also allowing for custom height and projection adjustments. Installers love them!
<b>CONTROL OPTIONS</b>	
<b>Standard Tilt/Lift Cords</b>	Superior tilting mechanism is designed for smooth, long-lasting operation. Blinds tilt open or closed by pulling on the cord tilt. Lift cord features break-away stop ball for added safety.
<b>Wand Tilt</b>	Adjusts the blinds open or closed with a simple twist. (2" slats only)
<b>A Cordless Lift &amp; Lock</b>	 Press a button on the aluminum bottomrail to lift and lower the blind; release the button to lock blind into place. No lift cords enhance child safety.
<b>Cordless Lift</b>	 Lifts and lowers shades with a light push or pull on the bottomrail. Eliminates lift cords making them safer in homes with children. (2" slats only)
<b>RemoteTilt</b>	Battery-powered multi-channel radio frequency (RF) system tilts blinds open and closed with the touch of a button. The RF remote control operates the blinds at great distance and the multi-channel version allows for independent blind operation. Combine with wall switches or timer for total convenience.
<b>DESIGN OPTIONS</b>	
<b>Solid/Decorative Tapes</b>	Over 30 selections to accentuate the blinds; decorative tapes are woven, not printed.
<b>LightsOut Routeless</b>	Slats have no route holes, which means reduced incoming light, increased privacy and better aesthetics.
<b>2- or 3-on-1 Headrail</b>	Two or three blinds may be combined on one long headrail for flexible light control and beautiful unity.
<b>HARDWARE AND INSTALLATION</b>	
<b>Low Profile Headrail</b>	Our slim design low profile headrail is strong enough to cover large windows with a single blind, yet slim enough to reduce stack and allow more view.
<b>A Metal Components</b>	Cordlock, tilter and barrels inside the headrail are metal, not plastic, for better performance and longer life.
<b>Ladders</b>	Four strand ladders won't stretch, ensuring uniform slat alignment.
<b>Tilter System</b>	Wheeled cord tilter and hexagonal tilt rod enable smooth operation and tight slat closure.
<b>Trapezoid Bottomrail</b>	Provides contoured, modern look, improved slat tilting/rotation, and better closure.

Certified Best for Kids when used with wand tilt
